STATE OF MAINE
PUBLIC UTILITIES COMMISSION

Docket No. 2000-141

July 5, 2000

CRC COMMUNICATIONS OF MAINE, INC.
Petition for Finding of Public
Convenience and Necessity to
Provide Service as a Facilities Based and
Reseller Competitive Local and
Interexchange Telephone Utility

ORDER GRANTING AUTHORITY
TO PROVIDE FACILITIES-BASED AND
RESOLD LOCAL EXCHANGE
SERVICE; FACILITIES-BASED AND
RESOLD INTEREXCHANGE
INTRASTATE SERVICE; FACILITIES-BASED AND RESOLD DEDICATED
SERVICES; AND APPROVING
SCHEDULE OF RATES AND TERMS
AND CONDITIONS

WELCH, Chairman; NUGENT and DIAMOND, Commissioners

In this Order, the Commission grants CRC Communications of Maine, Inc. (CRC or Company) the authority to provide facilities-based competitive local exchange service in the service area of the exchanges of New England Telephone and Telegraph Company d/b/a Bell Atlantic-Maine listed below; resold local exchange service in all areas of the State of Maine; resold and facilities-based dedicated service in the State of Maine; and resold and facilities-based intrastate interexchange service in the State of Maine; and approves the Company's Terms and Conditions and Rate Schedules. We also exempt CRC from the requirements of Chapter 210, *Uniform System of Accounts*, and of 35-A M.R.S.A. §§ 707 and 708, subject to the conditions described below.

I. APPROVAL OF APPLICATION TO SERVE

On February 18, 2000, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, CRC filed a petition with the Commission requesting authority to provide facilities-based and resold local exchange telephone service, dedicated services, and facilities-based and resold interexchange service in Maine. Before we grant approval under section 2102 for another public utility to provide service, 35-A M.R.S.A. § 2105 requires us to find that the public convenience and necessity require another utility to provide service in a location where utility is already authorized to provide, or is providing, the same or similar service.

47 U.S.C. § 253(a), enacted by the Telecommunications Act of 1996, states:

(a) In General. No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunication service.

47 U.S.C. § 253(b) states, however:

(b) State Regulatory Authority. Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers.

We find that granting CRC the authority to provide local exchange and interexchange services in Maine will not impede the preservation or advancement of the public interest goals or policies stated in section 253(b).

CRC's application provides reasonable information indicating that its financial and management capabilities are adequate to provide local and interexchange services in Maine.

II. SERVICE TERRITORY

A. <u>Interexchange Service Authority</u>

CRC has requested authority to provide facilities-based and resold interexchange service as a reseller throughout the state. We grant that authority.

B. Dedicated Services

CRC has also requested authority to provide dedicated (unswitched) services, which may be provided using its own facilities or through services that it purchases from other carriers and resells. Dedicated facilities are capable of carrying either interexchange or local traffic. We grant that authority.

C. Local Service Authority

CRC initially requested authority to provide facilities-based local exchange service in the Portland and Lewiston exchanges of New England Telephone and Telegraph Company d/b/a Bell Atlantic-Maine and in the Gray, West Gray and New Gloucester exchanges of Pine Tree Telephone & Telegraph Company. It later amended its request to provide facilities-based local exchange service in the areas served by the Portland, Lewiston, Westbrook, Windham and Scarborough exchanges of Bell Atlantic-Maine. Facilities-based service includes service provided through the use of unbundled network elements obtained from an incumbent local exchange carriers. At this time CRC is only willing and able to provide facilities-based local

¹The Portland exchange includes the wire centers of Portland, South Portland, North Deering, Falmouth and Peaks Island.

exchange service to areas within the exchanges named above. We will grant authority to CRC to provide facilities-based local exchange service only within those exchanges.

If CRC wishes to expand its facilities-based local exchange service area in the future, it shall seek such approval pursuant to 35-A M.R.S.A. § 2102, requesting the Commission to amend this Order. CRC's proposed service territory for facilities-based local exchange service shall be limited to those areas in which it will be ready to provide facilities-based switched local exchange service within six months. It is not necessary for a CLEC with existing authority to present a full application in order to request additional service territory authority. The Commission will act expeditiously on any such application and revisions of Terms and Conditions. With any such application, CRC shall include information establishing a readiness to provide facilities-based local exchange service within six months in the specifically identified additional areas.

III. APPROVAL OF TERMS AND CONDITIONS AND RATE SCHEDULES

We allow the terms and conditions proposed by CRC to go into effect. CRC has based its terms and conditions on the Commission's standard terms and conditions that comply with Maine law and the Commission's Rules. We have reviewed the Company's petition, Terms and Conditions, and Rate Schedules, and they appear to comply with Maine law and the Commission's Rules. Nevertheless, if there is any conflict between a provision in CRC's terms and conditions and the Commission's Rules or a statute, the rule or statute will control. Included in the Terms and Conditions is a provision stating that in the event of such a conflict, the statute or the Commission's Rule will control.

We note that specific prices for all services in CRC's rate schedules have been left blank. CRC cannot provide service in the absence of filed rates. Before it commences service, it shall file revised rate schedules that contain rates.

In general, the Commission believes that a competitive telecommunications market results in services and rates that benefit the public. We believe that the acceptability of CRC's services and rates in the market place provides an adequate test of the reasonableness of the Company's rates. Accordingly, when CRC files actual rates, we will allow them to go into effect on the date proposed by CRC.

IV. INTERCONNECTION AGREEMENT(S)

In order to provide local exchange service, a CLEC must, as a practical matter, obtain an interconnection agreement with the ILEC(s) providing service in any area where it intends to provide service. In the absence of such an agreement, it will not be possible for CRC's customers to call customers of the ILEC(s), and vice versa. Interconnection agreements are governed by 47 U.S.C. § 252, and must be approved by this Commission.

If a CLEC makes a bona fide request for an interconnection agreement with an ILEC that is a "rural telephone company" as defined in 47 U.S.C. § 153 (37), the "rural exemption" of 47 U.S.C. § 251 (f) will apply. All of Maine's independent incumbent local exchange carriers are "rural telephone companies." A rural telephone company is not required to negotiate an interconnection agreement or provide interconnection until after the Commission, pursuant to 47 U.S.C. § 251(f)(1)(B), finds that the requirement "is not unduly economically burdensome, is technically feasible, and is consistent with [the universal service provisions of] section 254 " The service territory we grant today for facilities-based local exchange service does not include any areas served by a rural telephone company, but CRC is authorized to provide resold local exchange service throughout the state. As a practical matter it cannot offer local exchange service in the service territory of a rural ILEC until such time as that ILEC's rural exemption is terminated.

If CRC executes an interconnect agreement(s) with ILECs(s) it shall obtain approval of that agreement by this Commission.

V. PAYMENT OF ACCESS CHARGES

Our approval of CRC's application to provide interexchange service in Maine is conditioned on the payment of access charges to local exchange carriers (LECs) who have on file with the Commission approved access charge rate schedules.

The Commission has also granted authority to CRC to provide interexchange service both as a facilities-based carrier and as a switchless reseller. ² If CRC provides facilities-based interexchange service, it must pay access charges directly to local exchange carriers. Switchless resellers do not pay access charges to local exchange carriers. Instead, access charges are paid by an underlying facilities-based interexchange carrier. As a condition of granting authority to a switchless reseller to provide intrastate service in Maine, its underlying facilities-based carrier must also have authority to provide intrastate service in Maine. CRC has stated that AT&T, Sprint or Worldcom will be the underlying carrier from which it purchases interexchange services that it resells. All of those carriers are authorized by the Commission to provide intrastate interexchange service and do pay access charges for the intrastate interexchange services that they sell to switchless resellers providing interexchange service in Maine. If CRC begins to use another authorized underlying carrier, it shall notify the Commission as required by the ordering paragraphs. If CRC begins to provide facilities-based interexchange service, it shall notify the Commission and all LECs from which it obtains access, as required by the ordering paragraphs.

²We define switchless resellers as entities which do not own, lease, or control any switching facilities, or private lines, that it will use to provide telecommunication services in Maine. A reseller who owns a switch in another state, and plans to use that switch to switch or carry Maine traffic, is a switched reseller. A reseller who does not own facilities in Maine or any other state, or who owns facilities in another state but does not plan to use that switch to carry Maine traffic, is a switchless reseller.

VI. WAIVERS; REPORTING REQUIREMENTS

As a condition of providing local exchange service, CRC must comply with the terms of any applicable Commission orders or rules that may govern local interconnection and compensation for interconnection. CRC shall also comply with any applicable Commission Rules or orders that govern universal service, public safety and welfare, service quality and consumer rights.

Pursuant to sections 11(A) and 12(A) of Chapter 280, which govern carriers' interexchange activities, CRC is exempt from Chapter 210 of the Commission's Rules, which governs telephone utility accounting and annual financial reports, and from 35-A M.R.S.A. §§ 707and 708, which govern approvals for reorganizations and contracts with affiliated interests. CRC has also requested waivers from the requirements of Chapter 210, and from 35-A M.R.S.A. §§ 707and 708 for its local exchange service, and we grant those waivers. Because CRC's rates and operations are likely to be subject to market forces, we do not see any present need to subject the Company to those requirements.

However, the Company must report its annual intrastate gross operating revenues, its revenues derived from sales to other carriers, and its annual intrastate minutes for use for the purpose of determining its regulatory assessment.³ If CRC resells service to other switched or switchless telephone service providers, the Company must maintain its records so that it may separately identify those sales. Pursuant to Chapter 280, § 11(B), CRC

shall maintain records sufficient to identify and to allow auditing of traffic volumes, intrastate interexchange billings for both retail and wholesale services, and all information that is necessary to calculate access or interconnection charges in accordance with this Chapter. Those records shall be maintained for a minimum of 2 calendar years.

The exemptions from the affiliated interest approval requirements of 35-A M.R.S.A. §§ 707 and 708 granted by Chapter 280, § 12(A) are subject to the notice requirements contained in Chapter 280, §§ 12(B) and (C) and in the ordering paragraphs below. The exemption from 35-A M.R.S.A. §§ 707 and 708 does not apply to Pine Tree Telephone & Telegraph Company (Pine Tree), which is an affiliated interest of CRC. Pine Tree must continue to comply with the requirements of sections 707 and 708 because it is an incumbent local exchange carrier, and the Commission actively regulates its rates.

³The Commission mails the annual reporting forms to carriers in January of each year. The completed forms are due by April 1 of each year.

In addition, CRC shall inform the Commission of any changes to its corporate structure and ownership and of any changes in the name under which it does business, as set forth in the ordering paragraphs below. If necessary, it shall also refile its rate schedules and terms and conditions to reflect its new identity.

VII. OTHER REQUIREMENTS

CRC shall comply with all applicable rules of the Commission and statutes of the State of Maine, including the customer notification rule described in the ordering paragraphs below.

VIII. ORDERING PARAGRAPHS

Accordingly, we

- 1. Grant, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, the request of CRC to provide facilities-based competitive local exchange telephone service in the areas served by the Portland, Lewiston, Westbrook, Windham and Scarborough exchanges of New England Telephone and Telegraph Company d/b/a Bell Atlantic-Maine; local exchange service as a reseller in all areas of the State of Maine; facilities-based and resold dedicated unswitched services (which are capable of carrying local and interexchange traffic) in the State of Maine; and facilities-based and resold interexchange service in the State of Maine;
- 2. Exempt CRC from the requirements of Chapter 210 of the Commission's Rules, except that it must report the revenue and minutes of use information that is requested by the Commission, on or before April 1 of each year;
- 3. Exempt CRC from approval requirements of 35-A M.R.S.A. §§ 707 and 708, but CRC shall provide notice to the Commission of any reorganization, as defined in 35-A M.R.S.A. § 707 (1)(A), that results in a merger, sale or transfer of a controlling interest of CRC or of any entity that owns more than 50% of CRC. The notice required by this subsection shall be filed within 10 days following any reorganization described herein, as required by Chapter 280, § 12(B). As required by Chapter 280, § 12(C), CRC shall also provide notice of any other changes in the name under which it does business (d/b/a), any change of the location of its business office, and any change of its contact person. CRC shall provide the Administrative Director of the Commission with notice of any of the changes described within 30 days following the change. If necessary, CRC shall amend its rate schedules and terms and conditions to reflect any change in identity; and
- 4. Order that CRC's proposed terms and conditions and rate schedules filed on June 12, 2000 shall be effective on the date of this Order;

- 5. Order that CRC shall not provide local exchange or interexchange telephone services in the State of Maine until it files with the Commission rates for the services described in its rate schedules, terms and conditions;
- 6. Order that CRC, or an underlying facilities-based interexchange carrier authorized to provide interexchange service in Maine, shall pay interexchange access charges as required approved access rate schedules filed by local exchange carriers.

CRC shall notify the Commission of any change in its underlying carrier within 30 days following the change. Any underlying carrier used by CRC shall have the authority to provide intrastate interexchange service in Maine. CRC shall immediately inform the Commission and all local exchange carriers in the State of Maine from which CRC will be purchasing access services if there is any change in its operations that will result in its carrying, switching, or any processing of any of its own traffic, at which time CRC shall begin to pay access charges directly to those local exchange carriers that have approved access charge schedules on file with the Commission; and

7. Order that CRC shall comply with all applicable rules of the Commission, including the requirement of Chapter 280 § 10 that interexchange carriers provide notice to all affected customers of an increase to any rate that is greater than 20%.

Dated at Augusta, Maine, this 5th day of July, 2000.

NOTICE OF RIGHTS TO REVIEW OR APPEAL

5 M.R.S.A. § 9061 requires the Public Utilities Commission to give each party to an adjudicatory proceeding written notice of the party's rights to review or appeal of its decision made at the conclusion of the adjudicatory proceeding. The methods of review or appeal of PUC decisions at the conclusion of an adjudicatory proceeding are as follows:

- 1. <u>Reconsideration</u> of the Commission's Order may be requested under Section 1004 of the Commission's Rules of Practice and Procedure (65-407 C.M.R.110) within 20 days of the date of the Order by filing a petition with the Commission stating the grounds upon which reconsideration is sought.
- 2. <u>Appeal of a final decision</u> of the Commission may be taken to the Law Court by filing, within 30 days of the date of the Order, a Notice of Appeal with the Administrative Director of the Commission, pursuant to 35-A M.R.S.A. § 1320 (1)-(4) and the Maine Rules of Civil Procedure, Rule 73 et seq.
- 3. <u>Additional court review</u> of constitutional issues or issues involving the justness or reasonableness of rates may be had by the filing of an appeal with the Law Court, pursuant to 35-A M.R.S.A. § 1320 (5).

Note: The attachment of this Notice to a document does not indicate the Commission's view that the particular document may be subject to review or appeal. Similarly, the failure of the Commission to attach a copy of this Notice to a document does not indicate the Commission's view that the document is not subject to review or appeal.
